

A REPORT ON OUR WORK FROM INTERNATIONAL RELIEF & DEVELOPMENT (IRD)

During April I received the below report regarding a container that we had shipped into Donetsk, Ukraine at the request of the United States Department of State. This container was to help answer a plea from IRD regarding urgent needs in the hospitals in a district of Donetsk.

The container was loaded out of Judsonia and shipped to Donetsk. To me one of the more incredible facts in the report is that this one container helped 10, 350 people! Through this effort the Lord's Church received a number of commendations for its sensitivity and concern.

Here are a few pictures of the loading in Judsonia and then IRD's report follows.

Donation Distribution Report

GLDU 063463-9

Address of IRD or partner field office: IRD Donetsk, office 3, Konstitutsii Sq., Donetsk, Ukraine, 83001

Donor: Churches of Christ, John Kachelman, Jr.

LIFE STORY

Slavyansk Municipal Association of NGOs for disabled persons serves its members and clients in Slavyansk town, Donetsk oblast. For instance, Nina Antonova, one of its members, received a new wheelchair and crutches through this organization.

Nina is a 23-year-old disabled woman since her birth. She was born with cerebral palsy. Nina's mother and grandmother take a good care of their lovely girl and surround her with lots of love.

When Nina was a little girl, she was wheel-chair bound, always stayed at home, couldn't speak clearly and suffered from apparent lack of socialization. She had a limited interaction with other children and felt isolated. She was a home-educated child and only in summer time her mother could take her outdoors. It was not an easy task to get her down in a wheelchair as they lived on the second floor in the apartment building without the elevator and wheelchair rails.

Nina was in great need of a new wheelchair, as her old one got broken and her mother could not afford another one to replace the broken one. Nina's family lived poorly in the apartment that badly needed renovations but they couldn't afford it. All their meager income from the grandmother's pension and disability payments were regularly spent to buy food and medicines.

Nina's mother kept asking people about a wheelchair for her daughter. She was so glad when one of Slavyanks NGO members told her about humanitarian assistance provided by churches of Christ, with John Kachelman, Jr. Nina's mother was so happy to receive a much-needed wheelchair and crutches for her daughter.

Nina says: "Your gift makes my life so much easier and always reminds me that there are "good people" who care about people like me. Now I can move around my apartment and get

outdoors, and I also can walk with crutches. Your assistance gave me freedom and mobility to communicate with other people. I truly appreciate the kind support and efforts of the churches of Christ, John Kachelman, Jr. And I want to thank all people who work in this organization.”
